## Clackamas County Needs New Leadership

*“There are significant challenges facing our county. But because of those challenges, we have the opportunity to get it right. “Politics as usual” has hurt employers and investors, the very people we need to create jobs.*

*There is growing distrust between the people of Clackamas County and the county government. People are concerned about waste and inefficiency. We need a change.*

*As County Chair I will listen and set an agenda that is responsive to the citizens of Clackamas County. Together we can maximize existing resources, make better choices, and protect our community.*

*I will lead the way in restoring trust in county leaders and set priorities that build a positive future for the people of Clackamas County.”*
